

SPP Indicator B-MSDS Data

Probe Questions

Common Indicator Probe Questions

1. How does your performance level compare to the State target of 100%?
2. Does the performance level reflect a district wide **systemic** problem (e.g., it involves multiple classrooms, buildings, providers, personnel changes, or processes), or is it **clustered** in specific buildings, or with providers, or groups of students?

Indicator-Specific Probe Questions

Questions Related to Data Collection and Reporting

1. Are local data collection systems in place?
2. Is the data being entered correctly in the local student data system?
3. Are data submissions in the local student data system reviewed by more than one person?
4. Are the local student data system and the MSDS interfacing without problems?
5. Are data submissions in the MSDS reviewed by more than one person before being certified?
