

Part C 2014 Strand Report State of Michigan

The Strand Report provides service areas with a snapshot of how they performed on the indicators reported to the U.S. Office of Special Education Programs (OSEP) in the Annual Performance Report (APR). Throughout the year, service areas see small updates to the Strand Report, but each April the report is overhauled with data submitted by the Michigan Department of Education in the APR. This Strand Report reflects data reported on February 3, 2014 regarding **FFY 2012** (federal fiscal year 2012, which is data collected between July 1, 2012, and June 30, 2013).

This report is organized by indicator. To learn more about a particular indicator including its definition, measure, data collection dates, and data sources, click on the indicator name (e.g., Timely Service Delivery) to be taken to the [CIMS Web site](#).

Review of Data: Compare the State’s aggregate performance listed in the Local Data column to the target for each indicator. A “thumbs up” in the “Target Met?” column indicates that the State met the target; a “thumbs down” means that the State did not meet the target.
